First mentor session was held on 23rd August 2024.

The Topic in this session was 'Moral values'. Moral values were kept as the topic because today children are moving ahead in the field of studies but forgetting the moral values. Moral values are such a serious subject which is very important to keep discussing otherwise today's young generation will completely lose its way. Therefore it is very necessary to reach the moral values to children in order to keep our culture intact.
