Solid waste segregation:

Dry waste is segregated from the wet waste and disposed of separately.

Rainwater harvesting:

The rainwater system is functioning. We have a water tank with a capacity of more than 10000 litres. The water collected in the tank serves the sacred grove owned by the local community deity.

Plastic-free campus:

We are a 100 per cent polythene-free campus. We discourage the use of plastic and polythene, and even in our canteen, food is served in reusable plates.

Adoption of villages:

The college has adopted the village of Loharab and four schools. This is helping all stakeholders understand the requirements of students and people from the village.

Local schools visiting different departments in the college

The NSS created a shortcut that is now frequently used by the college students and people of Loharab.
